

HARD ECONOMIC TIMES CALL FOR INCREASED DONOR SUPPORT

Sign up for Riverwood Foundation's Direct Giving Program

Government reimbursements for healthcare services are shrinking. On average, Riverwood Healthcare Center only **receives \$.63 on every dollar billed** for patient services. What does that mean for local healthcare? That Riverwood relies on donations from individuals like **you** to fill the gap in reimbursement so that we may continue to offer advanced medicine through new services and technologies.

We believe that even though Riverwood serves a rural area, our communities deserve access to quality and compassionate healthcare, even in tough economic times. That's why we're asking you to become a *sustaining contributor*. It will help us fund projects based on a more **reliable and sustainable income** stream.

How does it work? Fill out the form below and send it in to the Foundation office. On it, you will specify a fixed amount that will be **automatically deducted** from your account of choice. It will help us better plan for projects because we will know what to expect every month. Plus, it cuts down on administrative costs and saves you time and postage. Processing is secure and handled by Bremer Bank, a trusted source and supporter of Riverwood Healthcare Center.

Sign up today to receive your *free* Riverwood Foundation book & laser light--great for car trips, presentations, and even playing with your cat. Become a sustaining contributor today to support a **healthy community**.
